REICHSTAG FIRE TRIAL SENSATION

DIMITROFF'S FURIOUS ONSLAUGHTS ON COURT

Seized By Police And Forced Down To Seat

MAGISTRATE ADMITS, HE GAVE FALSE REPORTS TO PRESS

LEIPZIG, Sept. 27.

The spectacle of the examining Magistrate Vogt smarting under the questioning of his former prisoner Dimitroff, and Supreme Court desperately defending its dignity against his furious onslaughts was the sensatio to-day.

JUDGES' THREAT

Dimitroff was finally seized by the police and forced down to his seat while Judges threatened him with exclusion from Court if he uttered another word.

Under Dimitroff's cross-examination Magistrate Vogt admitted the inaccuracy of the statement which he issued to the press declaring that three Bulgarians were responsible for dynamiting Sofia Cathedral in 1924. ..

"PUBLIC DELIBERATELY MISLED."

Dimitroff exclaimed:

"I want to show that Vogt's whole examination was tendentious and the public was deliberately misled. I have been five months in chains contrary to justice and law." ..

He proceeded to read the relevant passage from the Penal Code and added that he made ten applications, three in writing, for removal of chains.

DENIAL AND ADMISSION.

Magistrate Vogt denied that he received applications, but after a further fierce onslaught by Dimitroff, admitted that he received applications but was not allowed to order the removal of chains.—Reuter's Special.

Out Of The Gloaming.

With an entirely docile Parliament under his control Sidky Pasha has ruled the country with scarcely veiled dictatorial powers, writes the "C and M. Gazette" with admiration. India has always got a pull over Egypt, and there Simla's greatness lies.

* * * *

Unfortunately like other strong rulers, Sidky Pasha has made no provision for a competent successor,—comes from the same source. There is no necessity, for all the competent men are either in jail or in exile—that's the beauty of dictatorship.

* * * *

But the sting lies in the tail, for King Faud is asked to find a Minister who will carry on Sidky Pasha's traditions and be without "anti-British factiousness" Strange isn't it, that they should all be factious and anti-British, —for no reason whatever.

* * * *

They should export one of our Indian Ministers to Cairo, though we cannot guarantee him the high salary he gets here. But he will be the most admirable Crichton for King Faud—able to do anything and everything at any time—a master contortionist!

* * * *

Just when they were considering such a delectable question as that of giving an address to Lord Brabourne, of whom Sir Byramji Jijibhoy knows so much —from a distance of 6,000 miles, —the high and mighty Corporators called themselves "dogs, donkeys and asses."

* * * *

We are afraid this estimate of the Corporators of their own worthy selves may even induce Lord Brabourne to refuse an address from such persons, in spite of the certificate given to him by the knight that he was "steeped in the best traditions of Parliament."

* * * *

They do indulge in worse horse-play in the British Parliament, but what is becoming in England may not be becoming in Bombay—Morley's fur coat theory again! We hope the members won't go to court and raise more dust there, over the address!

* * * *

Mr. H. P. Mody naturally sneered at the "ideals of moral rectitude" professed by some members of the Corporation—his followers can't afford to indulge in such a luxury—and said they didn't even appreciate the doing of a 'graceful thing'!

* * * *

The Progressivists, of course, are not concerned with such useless mental baggage as "ideals of moral rectitude". It is not in their line and they at once voted two addresses—be graceful before everything was their war cry—and disgraceful afterwards.

* * * *

An ex-High Court Judge says that the only way of dealing with terrorism is to create a new department to hunt the culprits down, and punish with death any member who belongs to such an association. To give all this advice to Sir John Anderson is like carrying coals to Newcastle! Isn't it?

* * * *

Only the most sympathetic officials says the ex-dispenser of justice undefiled, are tracked down by the assassins. If he had been in India at present somewhere in Chittagong, we should have been nervous about his fate—with his great sympathy for Indians and their aspirations and his burning zeal for justice.

* * * *

The Joint Parliamentary Committee is really in a desperate hurry, and India is hopefully told that it will get the report which will seal its fate, somewhere in March next. Everything comes to those who wait!

* * * *

We are asked to possess our soul in patience, for "with the best of will in the world it (Bill) cannot be hurried." Just as we thought, though no one would believe us when we told them this a year ago or more.

* * *

The Southern Maratha Country States met in conference and agreed to differ, just as the Princes in the Princes' Chamber also agree to differ. This agreement to differ is a speciality in this country and always carries us over—well, not over but round every obstacle.

PEACE IN FAR EAST.

PEKING, Sept 27

The danger of explosion in Far East has vanished.

After pretending to flout the legality of the demilitarised zone, Fang Chenwu is moving his troops back to Charhar. Although the ultimatum expired at midnight, Japanese have withheld the employment of active measures in order to avoid unnecessary bloodshed, having received assurance from Peking authorities, who regard Fang as a rebel, that the situation is well in hand.—Reuter.

SIMON DEFENDS LEAGUE.

GENEVA, Sept. 27.

A spirited defence of the League and the Disarmament Conference against what he described as "unfair criticism," was the most striking feature of Sir John Simon's address to the League Assembly. Sir J. Simon's reply to criticism that no progress had been made was apparently a direct answer to the Norwegian Premier Mowinakel's speech yesterday. Sir John urged that prompt achievement of disarmament would do more than anything else to help economic recovery. He said that some modification of the present draft disarmament convention might facilitate the formulation of a plan for disarmament by stages.—Reuter

UNDO PAST WRONGS

Enraptured by Western civilisation any style we forsook since decades the cloth spun and woven by our own country-men and country-women.

Consequent extinction of supplementary industry rendered a vast humanity unemployed and deprived them even of the barest necessities required for keeping body and soul together.

If these millions are to live, no other cloth that comes in the way of universal adoption of Khadi should have any place in India. If the people take it to their mind, this position can be brought about in no time.

Let us undo our past wrongs in Gandhi Jayanti and buy more and more Khadi.

The Labour Association has demanded that the question of standardisation of weavers wages should also be submitted to the Conciliation Board.

If the Board fails to come to an agreement it will refer these questions back to the Arbitration Board consisting of Gandhiji and Sheth Chimanlal.—A. P.

GRAVE CHARGES AGAINST EXCISE POLICEMEN

Chinaman Tells Sensational Story Of False Charge, Extortion And Assault

An allegation that he was assaulted by three excise police constables on his refusing to pay them money, was made by a Chinaman before Mr. G. R. Khairaz, Presidency Magistrate, Mazagaon a few days ago.

The complainant one Attoo Yakyum stated in his application before the Court that he was a carpenter living in Suklaji Street, Kamatpura. He alleged that at about 3 A.M. on January 4, Shiek Yusof and two other excise policemen, knocked at his door and on his opening they asked him to give them money. He questioned them as to what money they wanted. It appears, that the constables asked him to keep quiet and not to raise an alarm. He was later dragged into the compound of the Building, where, the Chinaman alleged, he was beaten by all the three of them and was throttled by one of them.

One of the constables is alleged to have tried to forcibly put into his pocket two packets of cocaine, which he tried to prevent. He was later put into a Victoria and taken to the excise lock-up, where he says, he was kicked by the policemen.

The next day he was charged before Mr. M. A. F. Coelho, Sixth Presidency Magistrate for being in possession of cocaine but he was acquintted and discharged.

The complainant then went to the J. J. Hospital, got himself treated and lodged a complaint with the Nagpada Police.

The case has been postponed for hearing to October 3.

PATHAN STABBED TO DEATH AT NAIGAUM

Passer-by Makes Gruesome Discovery

LOVERS' VENDETTA BELIEVED TO BE RESPONSIBLE FOR CRIME

Police Arrest Colleague Of Dead Man On Suspicion

Exactly ten days after the murder of a Parsi lady at Dadar, comes the news of the murder of a Pathan, on Wednesday. The police, who are investigating the case, have not yet been able to find the culprit, who was responsible for the murder.

Early on Wednesday morning, a pedestrian, noticed a young Pathan, lying in a pool of blood on the Naigam Road, near Sewri. He informed the Bhoiwada police, who came and took charge of the body. It was found that the Pathan, who was dead had eight stab wounds all over the body, and a blood-stained knife was lying nearby.

Though it has not so far been possible to discover a motive for the crime, enquiries show that the Pathan, Mohamad Yunoos (22) came to Bombay from a Frontier village only a few days ago with the intention of joining the City Police Force and was staying with some friends at Sewri.

It appears that he was in love with a girl in his own village, who was also loved by another Pathan. Due to the rivalry between the two lovers there was enmity which existed till the murdered man came to Bombay.

Yunoos and two other Pathans went to the Hind Mata Cinema on Tuesday night. After the show was over, they left for home and the murder was committed during this period.

The Bhoiwada Police are carrying on investigations.

POLICE ARREST PATHAN

One of the Pathans who went with the deceased to the cinema on Tuesday night has been arrested by the police.

Inspectors Wagle and Foster are making vigorous enquiries, and expect to arrest the real culprit very soon.

6,600 Guineas Horse Figures In Dead Heat For First Time

(Special Cable).

LONDON, Sept. 26.

"Tuppence" has at last provided his owner with a flicker of hope. Miss Dorothy Paget bought him as yearling for 6,600 guineas.

He was sensationally backed for the Derby but came nineteenth, and gave a similarly lamentable performance in eleven other races, but gained small compensation for his owner when he dead-heated in the race for the Orbiston Plate at the Hamilton Park meeting, with Sir Buchanan Jardine's filly "Sunblest."

The long-suffering owners divided the prize getting £53 each. "Sunblest" was also an expensive purchase, and had run eleven times without victory.

RASPUTIN THE SECOND

Suicide Ends Career Of Rascal Monk

PET OF SMART SET

Antoni, The Accursed Ruins Many Bulgarian Women Of High And Low Degree

SOFIA, (By Mail).

Not since the days of Rasputin, the Rascal Monk, has the amorous activity of a monk excited such controversy as in the case of Father Antoni, who has just taken his own life after surviving a suicide pact with beautiful Marie Dmitroff, a seveteen-year-old student.

He had carried on a liaison with her in the mountain village to which he had been banished by his superiors, because of his many love affairs with Society women and village maidens.

Regarded by some, particularly women, as a hero who had suffered for his love of beautiful women, the monk was regarded by others as another Rasputin, and he had been named Antoni the Accursed, because of the tragedy he brought into the lives of the women who trusted him.

RAPID PROMOTION.

Though only twenty-five at the time of his death, the handsome monk had gained rapid promotion in the church, and two years ago he was one of the most popular preachers with the Smart Set in Sofia.

Society women fiercely fought for his favours, and his love affairs became so notorious that his superiors had to step in and order his retirement to monastery.

In the village where this was situated, he made love to a young school teacher, and later, when trouble arose, abandoned her.

She drifted to the streets, and it was then that his superiors ordered his removal to another monastery. He was not long in finding a new affair, the partner this time being Marie Dmitroff, a seventeen-year-old girl student.

Night and day the couple were to be seen roaming the woods and mountains, and if the other monks thought it out of keeping with the position of Father Antoni that he should act in this fashion they could do nothing as he was their superior.

Then one morning it was noted with surprise that he did not appear as usual to say the Mass, and when the door of his cell was forced open the monk and the girl were found unconscious on the bed.

They had taken poison, and beside the bodies was this note in the handwriting of the priest:

"Don't be too severe in your judgment on us. There is nothing greater in life than love. We love each other and would die together. It is not cowardice."

The girl died, but the monk recovered, and with his recovery came a controversy between the civil and the religious authorities.

But Father Antoni settled the matter by committing suicide.

HINDU TAKES OVERDOSE OF OPIUM

Financial Difficulties Unhinge Mind Of Victim

Financial difficulties were said to be responsible for Gopal Parab, a Hindu youth, committing suicide on Tuesday night by taking an overdose of opium.

Gopal, who was living in hut on Gokhale Road at Dadar, went to sleep at about 9 p.m. and by about 9-30 some of his friends noticed that he was breathing hard and foam was coming from his mouth. They immediately removed him to the K. E. M. Hospital, where he died a few minutes later.

The police, who were informed went to the hut and on a search found two letters written by the deceased saying that he was committing suicide as he was in financial difficulties.

At the inquest held on Wednesday morning, the Coroner's Jury returned a verdict of death due to a suicidal dose of opium.

PRABHAT CINETONE'S Solemn Announcement.

We consider it a great misfortune to have been obliged to announce that the parcels containing "SAIRANDHREE" which were duly despatched by Mr. Shantaram from Berlin by the Dutch Air Mail as per his cable, did not reach Karachi owing to some unforeseen mishap enroute; the air-mail came but without our parcels! With supreme confidence we had sent to Karachi a Special airplane to bring the parcels, but it immediately flew back to Bombay bringing the sad news! We are now trying our utmost to locate the parcels and bring them here at the earliest possible moment. We have despatched express cables to here, there and everywhere to find out their location and in this the air-mail service are earnestly helping us. No sooner we get some definite information, we shall atonce make definite announcement. Till then we have to request our numerous patrons to sympathise with us for this unavoidable and unfortunate delay!

PAN-ISLAMISM MISUSED NAME

Muslims Are Indians And Wish To Live As Such, Says Sir Moh'd. Iqbal

LAHORE, Sept. 26

Further light on what Sir Fazli Hussain meant by his recent remarks pertaining to the pan-Islamism was thrown in a statement to-day by Sir Mohamad Iqbal, who said that "Pan-Islamism" as a term had been misused by certain newspapers themselves in India in connection with the Indian Muslims' desire to consolidate themselves as a cultural entity and to protect themselves as an Indian minority. Sir Mohamad Iqbal said:—

"Muslims, however, have no hesitation in declaring that they do regard themselves as an Indian Nation among other Indian Nations, and desire to live as such. Even Nationalist Muslims have never proposed that the Muslims of India should surrender their individuality and leave their fate to be determined by forces which may tend to destroy them as a people.

Any Muslim political leader who thinks otherwise has misread the mind of his community."—A. P.

OPERATIVES' "NO" TO EMPLOYERS

Deadlock At Manchester Conference

LONDON, Sept. 26

Cotton employers' attempts to cheapen production and the cost of higher grade textile to meet Japanese delegation by the extension of the system of more looms per weaver have come to a deadlock. Cotton operatives at a conference at Manchester with employers refused to consider extension owing to the inability of employers to guarantee that wages agreements will not be broken.—Reuter.

FROM SKYWAYS TO HIGHWAYS
Comes the
AIRWHEEL TYRE!

First built by Goodyear for aviation three years ago, this great super-soft AIRWHEEL TYRE was recently made available for motor cars.

Its success among motorists was instantaneous. They said it made riding like flying—*like floating on air!*

One glance will tell you why. It's just as soft as it looks—and it puts more cubic inches of cushioning air between you and the road than you ever rode on before.

Just for this luxurious featherbed softness that pillows all jolts and jars, many people are buying these big buoyant smooth-rolling cushions of rubber.

But don't overlook the other advantages of Airwheel Tyres. They increase the life of your motor car by absorbing shocks that vibrate right through ordinary tyres.

They increase safety, absorb sideway on curves—by putting more of the famed road-gripping All-Weather Tread down on the road.

They steer just as easy, take no more petrol—and are simply the last word in style. You've no idea how easy it is to change over to them. See your Goodyear dealer now.

GOODYEAR

THE BOMBAY CHRONICLE

THURSDAY, SEPTEMBER 28, 1933

A MATTER OF YEARS

Reports from Simla and London confirm the suspicion that the White Paper constitution as a whole will not come into operation for at least two years more. It has already been announced that the report of the Joint Committee will not be published till early in 1934. It would be more accurate to say that it will not be available till about the end of 1934. A number of witnesses are yet to be heard by the Committee. And the whole question of Burma has yet to be settled. Nor is the Committee in any haste to finish its business. Otherwise it would have at least selected the Burmese leaders to assist it as assessors or in any other capacity, so that they could be in London by the time the Committee finished its labours with regard to India. But that body and the Government are proceeding in quite a leisurely manner, as if they were bent upon wearing out Indian opposition to the proposed constitution.

DILATORY TACTICS.

Considering that the Committee will take three to four months to write its report, it may be assumed that the report will not be published till near the end of 1934. His Majesty's Government will then consult the Government of India and the Provincial Governments with regard to the new proposals, and the reactionaries here will have one more opportunity to pursue their dilatory tactics. The Government will also give ample time to the public and to the various non-official bodies to express their views.

The more varied these views, the longer will it take to adjust them and the more will it suit Government to play the role of the arbiter. Then the task of framing the Reform Bill will take several more months, and it will be many more months still before it will pass through both houses of Parliament.

P. A. AS THE SOP.

The greatest difficulty will be with regard to the Federal Constitution. It appears that, unless the Government give a fairly detailed draft scheme of Federation, the Princes will not give their final decision about joining the Federation. A pretty long time will be spent in haggling before a sufficient number of Princes can be persuaded to join the Federation. If they cannot be so persuaded,—not an impossible contingency—the whole question of Central Reforms will have to be reconsidered "ab initio."

Thus either on account of long delay in determining the Federal scheme or of the impossibility of persuading the Princes to accept it, there is every chance of Government making one more grand attempt to throw to the Indian people the sop of provincial autonomy of a sort and to leave the question of central reforms more or less unsettled. It was the stout opposition of the Liberals under Sir Tej Bahadur Sapru that frustrated the first attempt of this kind. But since then Sir Tej Bahadur has practically retired from the arena, and the broken demoralised Liberal Party may now be in a mood to take whatever is given graciously and to hope for better things hereafter. The forecast that we made a year ago of a tentative constitution conceding only provincial autonomy still holds the field and is justified by everything that has occurred.

REDEEMING FEATURE.

A redeeming feature of this policy of dilatoriness is that it will be impossible for Government to postpone general elections in the country till after the whole constitution is ready. And in any general election, provincial or central, a popular verdict against the White Paper scheme or that part of it which deals with the provinces is a certainty. That verdict will make it impossible for the Government to deceive the world into the belief that India supports their present proposals of reform.

Meaningless And Wasteful

The sponsor of the proposal for voting an address of welcome to the incoming Governor, Lord Brabourne, had nothing to say except that he was a comparatively young man and that he had Parliamentary experience. If this is all the equipment Lord Brabourne has for his governorship of this most important Presidency, the less said about it the better. Even the Corporation cannot be proud of the "privilege" of offering addresses of welcome to all and sundry. It is impossible to find any justification for this exhibition of flunkeyism which will involve a useless expenditure of money belonging to the ratepayers of Bombay, which could well have been spent for better purposes.

As we wrote on another occasion it is time for the Corporation to give up all these empty formalities, and take their work more seriously. When the Municipality are asked for some financial help by a deserving public institution, it is denied on the score of economy, but when it is a matter of giving an address to an official, the Corporation have not the slightest objection to hand out the money. As one of the opponents of the motion observed, it was beneath their dignity to give a welcome address to a person of whom they did not know anything, and with whom they have not even a nodding acquaintance. One of the supporters said his only reason for supporting the proposal was that he did not like to defy a "time-honoured" convention and that they ought to bring to the notice of the new Governor the need for the "continued observance by the Government of the principles of justice and righteousness."

Every official knows that in the governance of a country these principles must be observed, even if the heavens fall. But practical political considerations are of greater importance to administrators who have to consolidate their power and the constitution of which they are supporters. Every one knows the great need for "justice and righteousness", and all that Lord Brabourne will reply to such an impertinent suggestion is that the British Empire is broad-based on them, and that they have been the guiding principles of the rulers of India during the last 150 years, without which there would not have been this great Empire.

However, the opposition to the proposal ought to convince Lord Brabourne that the whole Corporation do not consist of Government nominees and representatives of vested interests, and that the voice of the people is to be heard sometimes in Municipal affairs. We hope that ere long it will not only be heard but will predominate. It will then be time to sweep aside practices which have no meaning to the majority of people in this city, or for the matter of that in this Presidency or anywhere else.

Signs Of Revolt

Soon after the Poona decision of the informal conference of Congressmen to resort to individual Civil Disobedience some Congressmen issued a manifesto announcing their intention to form a separate political group. Now we are informed that a party with the name of Democratic Swaraj Party has been formed for capturing legislatures. Its political creed will be the same as that of the National Congress, though non-Congressmen will be at liberty to join it. We have no desire to say anything either in favour or against this new party. We only take note of the fact that it is coming into existence, as a result of the growing dissatisfaction among Congressmen with the present state of things.

It was because we had foreseen this, that we strongly opposed the Congress policy of doing nothing, or rather doing the same thing as during the greater part of the present year. The position was very unsatisfactory, and a large number of Congressmen are now drifting apart. The creation of the Democratic Swaraj Party is the first sign of revolt among Congressmen, and as time goes on we shall no doubt see more of such groups springing up everywhere to work either apart from the Congress, or in opposition to it. That is a signal of danger, and if our leaders will only read the signs of the times, they may be induced to do everything in their power to prevent the country from dividing itself into various political groups, thus weakening the Congress. The present "nonpossumus" attitude is not not calculated to prevent such a catastrophe.

It is not too late even now to consolidate all these elements under the banner of the Congress and again make it the premier political organisation in the country, able to influence and weld public opinion in the service of India. The new political group now formed in Maharashtra is going to capture the legislatures, and its activities will be similar to those of the Swaraj Party which was dissolved some years ago. Though it may not be an ideal programme for the country, Congressmen are drifting towards it for want of something better to do. Therefore, we urge that the Congress leaders should prevent this by taking early steps to place before Congressmen an active programme of immediate work. So far only Bombay and Maharashtra have shown any signs of active revolt but it may spread to other provinces. It is stated that the Maharashtrian politicians of Congress persuasion are going to hold a conference of their own in a few days to consult each other and adopt a fresh programme. We hope the new group will not degenerate into responsivism, as happened in Poona and C. P. a few years ago. We have had enough of the futility of responsivism.

Press Views

They Ill Go Together

As long as the Congress remains committed to the policy and programme of civil disobedience, there is not the least chance of any body of Congress men being able to carry out any other programme, whether economic or otherwise, in an organised way. Individuals can do something and when they have a personality like that of the Mahatma or Pandit Jawaharlal they can even do valuable work. But the moment they attempt the task of organising the country in the name of the Congress —and without that they cannot really go far—they will find their limbs paralysed. That is why we think that the first essential thing, if the Congress is to take its proper share in leading the national movement along right lines in this most difficult period of our history, is for it to abandon the campaign of civil disobedience and, by doing so, to compel the Government for very shame to revise their policy.—"Tribune."

Taint Of Officialism

We always held that the Scout movement can never progress on healthy independent lines so long as it is tied to the apron-strings of officials and pro-officials. Instances are not wanting to show that the movement is liable to be exploited by job-seekers and title-hunters. The undesirable effect which such a sorry state of affairs is likely to have on the plastic minds of the young, may well be imagined. With officials at the head of it who will not so much as touch a national flag, we do not see how these children can be properly trained in national service or brought up in an atmosphere of healthy patriotism. Mr. Justice Young thinks it is "so easy to be national and so difficult to be international," but if internationalism is only a cover for narrow imperialism which seeks to crush nationalism, we would regard it as distinctly a danger to the country.—"Swarajya".

First Fruits

Hardly has the Calcutta Municipality Amendment Bill been passed when evidence of the potentialities of mischief inherent in it manfests itself. The Calcutta Corporation has postponed consideration of grants to the city's Ward Health Associations hospitals and dispensaries in order to find out whether any of these institutions have on their employ persons convicted of offences against the State. A doctor does not cease to be an efficient medical man, simply because he happens to be convicted of boycott activities in respect of liquor. The temporary withholding of the grant must cause considerable hardship to these institutions which attend to the medical and sanitary needs of the rate-payers, while permanent suspension of the grant, inevitable if they come under the sections of the new Act, will cripple their activities completely.—"Hindustan Times."

SUGAR MONOPOLY CANCELLED

But Others Still Remain

(BY A JUNAGADI.)

The Dewan of Junagalh has at last bowed to the popular resentment against the grant of the iniquitous sugar monopoly and an order has been issued announcing the abolition of the same with effect from the first of October.

This step, however belated, is a welcome measure and will help to restore the confidence of the public in the sagacity of Mr. Cadell. There are many other similarly inequitable transactions into which the Dewan's Office has plunged headlong without due regard for the consequences.

ELECTRIC MONOPOLY.

On such transaction has been the State's dabbling with the Seikh Mahamad Electric Supply Works. Junagad is a place notorious for the uncertainty of person and property and very few sensible persons ever think of embarking capital in the State. When, therefore, the State wanted an electric concern to be started it tried in vain to persuade someone to undertake the business for a period of three years.

At last Amir Sheikh Mahamadbhai prevailed upon Mr. Rugnath Raja, the son of the Junagad Nagar Seth, to take up the matter and with the support of the State a concern was eventually started known as the Sheikh Mahamad Electric Supply Works. This institution ran a successful career for about four years, till the advent of Mr. Cadell. Mr. Cadell served Mr. Raja with a notice informing him that the Supply Works would be taken over by the State after two months, Mr. Raja naturally protested and there has been a lengthy correspondence between the Dewan Office and Mr. Raja, which resulted in an understanding that all points of dispute would be decided by a Government expert, Mr. Ruse, whose award would be final.

While Mr. Raja was expecting the appointment of the arbitrator all of a sudden Mr. Cadell appointed one Mr. Aelmstein as Manager of the Supply Works and took over the charge of the concern. Mr. Raja protested in vain and up to now the question of compensation to him has been shelved.

UNCIVILISED LAW.

The situation became more acute as Mr. Raja had no remedy in law. Junagad, which claims to be the premier state in Kathiawar, has no law by which a subject aggrieved by the act of an executive can sue for justice. The Dewan is the sole arbitrator of the grievances and it is clear that in such cases where the Dewan is himself a party, he cannot be a competent judge.

All along this has been a standing grievance of the State subjects. Dewans have come and Dewans have gone but the law remains as barbaric and uncivilised as before and now, when we have a practical administration with a British Indian judge, no prospect of an amendment ever seems to be forthcoming.

KILLING COMPETITION.

After this electric concern was taken over by the State all possible avenues of increasing the income were exploited. The use of surplus power during day time is an obvious advantage to the State and with a view to make the most of an executive power the Dewan issued a memo that electricity should in future be used in Oil Mills. Licenses of oil mills would not be renewed after the year.

The oil merchants made a protest and so the Dewan passed another order directing that the licenses would be renewed for one year further. But side by side with this a Zarshahi Farman was issued that the custom on crude oil would be raised from 1/2 per cent. to 128 per cent., involving a two hundred fifty-five fold rise. The reason for this as is evident to impose such unparalled hardship on the oil mill owners is to make the working of oil engines impossible thus compelling them to become customers of

Frankly Speaking

U. S. AND CUBA

The position in Cuba would have improved greatly, if the United States had not crowded her warships near the Island. No doubt the American capitalists have sunk large sums in the sugar industry in Cuba, but that does not give them or their government the right to interfere.

It is not the business of the United States to help the nationals of the whole world who may have been doing business in Cuba. They go and reside there and take the ordinary risk which every citizen has to take.

If this policy of intervention were followed in the case of every country, there would be wars every other day and truculent nationals would go about creating conditions favourable for their country.

In the meantime it is gratifying to note that a satisfactory arrangement has been arrived at regarding the Cuban sugar quota, as sugar industry is the backbone of the Island.

It is to be hoped nothing will be done by the United States to precipitate matters and make an intervention possible.

MISUSE OF WORDS

We have no desire to join Sir Mahomed Iqbal in his controversy on the term Pan-Islamism, but his description of Indian Muslims as "an Indian nation among other Indian nations" is a mischievous misuse of the word "nation."

Even a school-boy will laugh at his travesty of the term though the enemies of Indian self-government may applaud it as a candid endorsement of their pet assertion that India is not a nation but a congeries of nations which British overlordship alone can hold together to any extent.

It is true that Indian Muslims, most of whom were originally Hindus, have by now developed a strong individuality, as several other Indian communities, religious or social, have done. But it is absurd to describe all these communities as so many nations in the country.

Nor is it necessary for these to surrender their individuality in regarding themselves as component parts of one nation. All that is necessary is that they should duly emphasise their numerous common traits and interests. Sir Mahomed is doing a disservice to his community by unduly emphasising its exclusive traits.

RUSSIA RETALIATES

Since the Nazis with their usual brutality ill-treated Russian journalists, Russia has been compelled to take retaliatory measures and expel German journalists from Russia.

It is not a question of merely arresting, but searching, after insulting them by stripping them of all their clothes in the early hours of the morning; that must have inflamed Russian public opinion.

The Soviet has always been backward in taking offensive action against other nationals, but this insult could not be allowed to pass without notice.

Systematic insults to Russians ought to be put down; therefore, while the Soviet has ordered all Russian journalists to return to Russia, she has ordered all German journalists to quit Russia.

It is too much to hope that this will teach Nazis to treat foreigners in their country, according to civilised custom. They are past learning.

LLOYD'S LEGACY.

The annual report of the administration of Industrial Housing Scheme shows only a slight improvement in the position—in fact it is no improvement at all, for only 150 more tenements were occupied last year than in the year previous.

The amount of rent collected also shows no appreciable difference. On the whole, as years pass on, it is becoming more evident that the scheme is a dismal failure. When better times come, even fewer people will go to live at Worli, unless there is a sudden boom in every industry in Bombay.

The only noteworthy feature is the health of the tenents, which is much better than in other parts of Bombay. But it does not necessarily follow that the tenements are good or sanitary.

This is one of the legacies of Lord Lloyd for which the City of Bombay and the whole Presidency have to pay heavily. And yet he says that Indians are not able to manage their affairs. We hope they could manage them better than this.

A MINORITY PROBLEM

From Another M.L.C.

I have read with great interest the article of an M.L.C. in your valued paper on the above subject. Indeed, it is the problem for the minority if they are treated like the Dawoodi Bohras by the Legislative Council! To be precise, Sir, eighteen members took part in the debate on Mr. G. E. Matcheswala's resolution to exempt the Dawoodi Bohras from the Wakf Act. Nine were Muslims and nine non-Muslims out of whom eight members supported the resolution while ten opposed it. I saw from the trend of the House that many more would have supported the resolution, if for want of time, it was not put to vote early.

I expected Dewan Bahadur S. T. Kambli to put forward the Government viewpoint giving reasons for supporting the resolution or opposing it. To my great surprise, however, he said nothing of the kind, except to find fault with the mover of the resolution and to say that "no new points have been argued before this House to change the decision of the Government which was taken in October 1931. This is the attitude of the Government on this point." Now, sir, this is a very vague statement on behalf of the Government made by a responsible minister of the Government. He said nothing whatsoever as to why Government had changed their attitude on this matter especially as they had given exemption to this particular community for over six years. Then again, this being a religious question, officials and their nominess should have refrained from voting and thus given a fair chance to the elected members to decide the issue on its merits. Seeing the attitude of the Government, the mover of the resolution asked permission to withdraw it when he found himself being fooled, having brought it on previous promises of support. The required permission was not granted and the resolution was thrown out!

I am not a Dawoodi Bohra, but having studied this question as to why they ask for an exemption and having satisfied myself that the demand is in conformity with their religious traditions, I did not hesitate to vote for it. In this connection, I agree with my Hon. friend and colleague Mr. P. B. Wadke, who on the debate in the Council suggested that two competent members of the Dawoodi Bohra community should be appointed to enlighten the house with regard to their side of the case. Mr. Matcheswala could not with ability present the case as he addressed the house in Gujarati.

To come to a correct conclusion instead of being guided by those who do not belong to the Dawoodi Bohra community, they should take opinion of well-known divines and persons well-versed in the religion, traditions, and customs of Dawoodi Bohras, who are also recognised and respected by that community and thus try to understand their religious sentiments in the true perspective, instead of throwing them overboard by the votes of men who do not see eye to eye with Dawoodi Bohras, or who are guided by some other prejudices well-known to themselves. Will Government rise to the occasion and do the needful to this community? I hope the Government of Sir Frederick Sykes will do the justice which the Dawoodi Bohras are clamouring for the last two years.

Govt. Ayurvedic And Unani College, Mysore

From A. C. Krishnaswamy, Advocate, Mysore.

The article which was sent by Mr. Syed Mahomood about this college is quite false.

The principal of this college Dr. L. Rama Krishna Rao, L.M.S. is the head of this institution, including both the Ayurvedic and Unani Hospitals. He was the Senior Asstt. Surgeon in the Medical department and was specially posted to this college, as there was some dispute among the ex-principal and the college staff and students.

Mr. Hussain Sheriff the Senior Hakim of this college, has nothing to do with the college affairs. The students are having now a comparatife study of both the allopathic and the indegenous system of medicines. In addition to this the students are also trained in surgery by this principal. He is very kind to every student and in return he is loved by all.

If this institution is to fulfil its aim, the stay of the present principal, Dr. L. Rama Krishna Rao, L.M. & S. is quite necessary for some more years.

NUISANCE IN B. B. & C. I. TRAINS

From "Jeff".

As a result of frequent complaints in the press of the nuisance caused by beggars and lepers in the G. I. P. local trains, it is gratifying to note that the Railway Administration has taken prompt and drastic action to put an end to this nuisance. So much so, it is understood, that the Railway authorities have advised their staff travelling by local trains to hand over at once to the station authorities any beggar found begging in the trains and report the matter to the Chief Traffic Manager.

This is not the first time that this premier Railway has taken notice of a complaint. This writer had on occasions in the past pointed out through your paper some of the grievances of the local passengers and they have been remedied. Thus by attending to the complaints of its passengers the Administration makes the public feel that the Railway exists for the convenience and comfort of the public.

Let us see how the sister Railway i.e. the B. B. and C. I. that runs parallel to the G. I.P. has been treating its III class local passengers. Complaints after complaints have appeared in the press either from the male and female passengers complaining bitterly against the beggars and hawkers in the male compartments and the nuisance created by fisher-women with their baskets and planks in the "Women's compartments" respectively, but the Railway authorities have treated them one and all with characteristic indifference. I have noticed how the guards, station masters and other officials pass by beggars and hawkers that coolly and calmly carry on their mission in the trains at the stations.

It is now quite evident that the administration that has so far flouted public opinion will not pay any heed to the complaints in future unless and until its hands are forced to take up the matter. We cannot expect the members of the Advisory Committee to take up the cudgels on our behalf for they are there not for the III class passengers. As for our City Fathers it is too an undignified subject for them to discuss. It is therefore up to us, the local passengers, to organize ourselves into a body and fight out our long standing grievances unitedly. I would request my fellow III class passengers to come forward with their views on the subject.

Brailsford On Gandhiji

From B. F. Bharucha.

"The Fear of Mr. Gandhi's Ghost" is the title of an article by Mr. H. N. Brailsford. Here are a few interesting extracts:—

(1) India's Government shares the normal human fear of ghosts. That is why it has released Mr. Gandhi unconditionally."

(2) Otherwise, "his ghost would have stood, invisible, yet present between every British official, every British statesman, and the Indian people checking every impulse to obey, and chilling every effort at reconciliation."

(3) "Is Gandhi's day over? No, asserts Brailsford. "It may be that the masses of India are to-day too weary, too dejected, too timid—for the self-sacrifice. But their love and veneration—is neither ended nor cooled."

(4) "He is India, when with perfect courtesy, he refuses to obey his (or her) Conqueror's commands."

India And Japan

From M. Z. Akmal.

The triparte negotiations at Simla are the outcome of the struggle between England and Japan to exploit our markets, and the British diplomats relying on our subservience or simplicity have allotted us a part in this political drama. However we can best serve our purpose by helping Japan in this economic struggle.

Japan is the victim of European selfishness like ourselves, therefore we have a common cause with that country. By standing with Japan we shall gain her friendship and gain in power.

Our delegates in following the right course need extraordinary courage, they may lose in prestige with their masters, but by adopting this line of policy they will gain the undying gratitude of the coming generation of India.

NIZAM'S BARGAIN FOR BERARS

Only Nominal Sovereignty To Be Conceded

H. E. H. In Return To Surrender Annual Rental And Accommodate Another British Regiment In Secunderabad

The protracted Berar negotiations, of which so much has been heard recently have, it appears, ended. The resultant proposals, it is understood, are that the Nizam is advised to forego his rights to receive the sum of Rs. 25 lakhs annually, as rental for Berar, in lieu of the British Government being allowed to station one more British regiment in the Nizam's dominions and reaffirming his nominal sovereignty over the Province under the forthcoming Federal Constitution.

The "Bombay Chronicle" learns on reliable authority that the Berar negotiations have taken a new turn.

The popular fallacy that the Nizam is going to get back the Berars, howsoever just and strong might be the case for rendition, has been exploded by the several statements made in the British and Indian Parliaments by responsible Government spokesmen.

The negotiations, it is probably not commonly known, relate not to the rendition of the Province, but to the terms on which the nominal sovereignty of the Nizam over his lost province is to be re-affirmed in view of the impending Federation.

At no stage of the negotiations has the question of rendition been even referred to. The British Government are too shrewd for all that.

HOW QUESTION AROSE.

When the question of Federation became a live issue at the first Round Table Conference, British experts thought they could exploit the occasion by telling the Nizam that even his nominal sovereignty over Berars would naturally be imperilled, as Berar would become a Federal unit, in its own right. He was later told that they would try and save the situation for him, if he authorises his delegate at the R.T.C. to enter into negotiations.

After prolonged talks, the first offer made was that if the Nizam gave so much gold—the exact figure is not known. It was probably two crores or so—his flag would be hoisted annually on ceremonial occasions, his son would get the title of Prince of Berar and his nominal sovereignty over the Province would remain unimpaired, inspite of the coming Federation. The Nizam is temperamentally incapable of agreeing to any proposal involving a gift of gold. So that proposal was dropped.

THE NEW OFFER.

The latest is that his nominal sovereignty would be re-affirmed if His Exalted Highness agrees to invite a full British regiment to be stationed in his Dominions and pays for its upkeep. The payment is to take the form of the Nizam foregoing his right to receive the annual rental for Berar, which is 25 lakhs.

So, under this new proposal, the Nizam is to deny himself 25 lakhs a year for a mere name, besides adding one more British regiment to those already stationed in the Dominions!

The transaction would, of course not be as crudely announced as it has been worded here. It would take the form of a requisition from the Nizam requesting the British Government to be good enough to send a regiment to his Dominions for some reason or another, and undertaking that, if the British Government would condescend to spare a regiment for him, he would forego in perpetuity the annual Berar rental.

The Government of India with the approval of His Majesty's Government, would say, in reply, that they have carefully considered his request, and are willing to accede it, in view of his traditional loyalty and faithful services in times of crisis.

Incidentally, the Government would re-affirm Nizam's mythical sovereignty over Berar.

The correspondence or post-prandial speeches, whatever form the announcement takes, will conclude by showering encomiums of praise on Sir Akbar Hydari for his tact and sagacity in conducting the negotiations on behalf of the Nizam.

HOW U. S. CRISIS WAS AVERTED

Prof. Shah Explains Roosevelt's Prosperity Plans

Peaceful atmosphere prevailed at the University Convocation Hall on Wednesday evening when Prof. K. T. Shah's lecture on "The Prosperity Plans of President Roosevelt", which was postponed on Monday on account of uproarious scenes created by the audience was delivered, under the joint auspices of the Bombay Swadeshi League and the Bombay Students' Brotherhood. The Hall was crowded with students and outsiders, though the attendance of the ladies was markedly thinner on this day.

ORIGIN OF CRISIS

Prof. Shah began his lecture by going in detail into the origin of the crisis that recently took place in America and stated that the decline in the volume of foreign trade was the underlying cause of it. Decline in foreign trade in its wake brought increased unemployment in the country and thus accentuated the weakness of the purchasing power of the country, with the result that great disparity in prices prevailed and affected the entire economic system of the States. The first symptom of the crisis showed itself in the weakness of the banking organisations which were overcome by the very revolutionary executive decrees and legislative provisions enacted by President Roosevelt whose measures received the fullest support from his countrymen.

Detailing a few of the decrees passed by Mr. Roosevelt, the speaker explained how the banking moratorium and the embargo upon gold effectively arrested the further enfeebling of the American banks. He also described how through the method of guaranteeing the depositors President Roosevelt succeeded in evolving a system of mutual insurance by which the depositors themselves insured their deposits.

UNEMPLOYMENT PROBLEM

Coming to other items of the national recovery programme outlined by President Roosevelt, the Professor pointed out the way in which America succeeded in solving the problem of unemployment by means of the extensive public works involving 3 thousand million dollars which provided employment for thousands of Americans. Thus was the unemployment problem partially solved.

At this stage the speaker offered to continue his lecture and deal with the other phases of the national recovery programme on Thursday at 6 p.m.

"I AM A FARMER AND A WEAVER" —GANDHIJI.

Mahatmaji takes pride in calling himself a farmer, a weaver and one belonging to the so-called untouchable class. It is his conviction that real India lies in these classes which form ninety per cent of the entire population; and it is his unshakable belief that the plight and future of these people are the plight and future of India.

We may not become a farmer, nor a weaver nor one of the untouchables. But we can positively better the condition of these people by purchasing Khadi.

Gandhi Jayanti offers the best opportunity for this laudable deed.

SUGAR MONOPOLY CANCELLED

(Continued from page 6)

State-owned Power. It cannot be denied that these tactics are as arbitrary as they are objectionable and come ill at a time when the head of the State is an I.C.S. officer with a long service reputation.

OBJECTIONABLE BEHAVIOUR.

What is more annoying still is that when the oil merchants approached the Dewan in the Dewan's Office, it is much regretted that the Dewan Saheb scolded the merchants and their pleader and directed the 'puttawala' forcibly to eject the merchants. The Dewan's behaviour was equally rude when the sugar merchants went and saw him on the subject of the sugar monopoly. It passes comprehension how an aged civilian who is now in his 66th year and who has been specially sent by the Viceroy to smooth the outraged feelings of the Nawab's subjects can himself outrage their feelings. There have been numerous other instances in which the Viceroy's representative has so treated the public and it is hoped that such exhibition of impatience will not be repeated during his tenure in the State.

EXTREME CAUTION IN COTTON TRADE

Operators Expect Definite Announcement Of U. S. Fiscal Policy

"Chronicle Special."

BOMBAY, (Wednesday) 11 p.m.

In the New York market expectation of some definite announcement in connection with the Government's future fiscal policy is holding the prices in check and traders were operating with extreme caution confining their activities to the needy requirements. The undertone, however, continues steady possibly due to some bullish statement from Washington.

The only feature of importance was switching off operations.

Trading in January opened at 10.13 i.e. four points lower but thereafter prices somewhat recovered on some trade buying influenced by steadier Liverpool advices and better stock exchange. At this level the market again eased on liquidation and southern selling which pushed the price down to 10.12. Around this quotation the market became nervous with uncertain tendency.

WHEAT.

Liverpool wheat opened easy 56 1|4 59 1|4 61 1|4 about half-penny lower mainly due to weaker American cables but thereafter prices ruled steady although nothing important transpired.

In the London Stock Exchange the general tendency was rather undecided. Gilt-edged securities showed brighter appearance on better enquiry. Three and a half per cent Indian loan quoted £86 i.e., 5 shillings lower.

London exchanges opened with sterling-dollar at 4.73-3|4 and remained practically steady but later in the session, dropped to 4.72-1|2. Franc opened 79.68 with easier tendency and continued to decline gradually but partially recovered later.

SILVER.

The local silver opened steady 56|4 56|6 56|10. Prices advanced on some scattered buying but the gain was subsequently lost on discouraging London silver advices which closed quiet but steady 56|4 56|6 56|10.

GOLD.

Gold opened quiet 32|13 32|13|3 32|13|6. Prices moved in very narrow range in the absence of any wide fluctuations in Sterling-Paris exchange. However, eventually prices partially gave way finally closing 32|12|3 32|13|6 32|13.

MARRIAGE BAR FOR MUNICIPAL SERVICE

If Corporation Takes Hard View Of Case, Says Mr. Desai, Matrimony Would Be Crime And There Would Be No Security Of Any Sort

Is marriage a disqualification for a lady doctor to be in the municipal service? This question arose over the case of a municipal lady doctor who, when engaged in 1930 in its services was unmarried, but having married recently, her services were dispensed with. It appeared from the letter of the Municipal Commissioner to the Standing Committee on Wednesday that:—

"Miss Sundrabai V. Raut, M.B., B.S., was appointed Medical Officer in charge of one of the Municipal Maternity Homes on 1st October 1930 and is drawing Rs. 270 plus Rs. 35 Duty Allowance plus Rs. 40 Conveyance Allowance per month. She proceeded on 2 months' leave on 1st August 1933 and it now transpires that she has married.

The Executive Health Officer is of opinion, and I agree with him, that it is not consistent with the duties of a Medical Officer in charge of a Municipal Maternity Home that the post be occupied by a married person. Miss Raut was, therefore, informed by the Health Officer both personally and in writing that on termination of her leave she would not be permitted to resume duty.

She has also been informed personally that, in the circumstances of her case, she would be permitted to take the benefit of the full leave due to her. Her present leave expires on 30th September 1933 but nothing has been heard from her so far.

NO SPECIFIC RULE

I might mention here that although there is no specific rule on the point in the conditions of service of Medical Officers in charge of Municipal Maternity Homes, Dr. Miss Raut was selected from among 15 candidates, who had applied for the post on the ground inter alia that she was unmarried. The married candidates were not even called for an interview and their applications were not considered.

In the circumstances, I am of opinion that it would not be desirable to continue Miss Raut in service and request the approval of the Standing Committee, under Section 83 (2) (a) of the Municipal Act, to her services being terminated on the expiry of the leave granted to her."

SPECIAL QUALIFICATION

Dr. A. J. Collaco requested the Commissioner to allow the lady to resume duty otherwise, he said, it would be hard for the married ladies to get employment. He thought that matrimony was special qualification for maternity hospital work.

Mr. M. A. Karanjawala asked the Commissioner as to why the lady's case was dealt with directly by the Executive Health Officer without consulting the Standing Committee.

MARRIAGE—A CRIME?

Mr. Mohanlal Desai submitted that if they took a hard view of the case matrimony would be a crime and there would be no security of the municipal service.

Dr. S. P. Mehta supported the commissioner that a married lady doctor was bound to neglect her duties and if the lady wanted to be in municipal service she should not have married. It was not possible for her to give 24 hours attention to her work as married lady doctor.

QUESTION OF PRINCIPLE

The Commissioner asked the Committee to consider whether a married lady doctor was fit for maternity hospital work. Her duty required her to be on the spot 24 hours of the day and night. Was it possible, he asked, to be on duty in her married life for 24 throughout the year? Then the municipality had no quarters for married ladies and it was undesirable that male members should stay in the maternity hospital. It was a question of principle and he left that question to the committee to decide.

After some discussion the Committee adopted Mr. C. W. E. Arbuthnot's amendment to allow the lady doctor to resume duty and for the future entrants to refer the matter to the Establishment Committee.

DUAL TRAGEDY IN THANA

Wife Murdered And Aunt Commits Suicide Fearing Family Scandal

(From Our Correspondent)

THANA, Sept. 27.

A sentence of three years' rigorous imprisonment was passed yesterday by Mr. M. A. Bhave, the addiational Sessions Judge of Thana, on Dharma Janya, who was unanimously found guilty by the Jury of culpable homicide not amounting to murder of his young wife Guni on June 15 last at a village in the Dahanu taluka.

Dharma was originally charged with murder. Mr. S. A. Ghatge the Sub-Divisional Magistrate for Dahanu Prant, Thana, committed him to the sessions on a charge of culpable homicide.

HISTORY OF CASE.

The prosecution story was that the accused, his wife and aunt were the only inmates in the house. Brought up by the aunt, the accused was married three years ago. The relations between husband and wife were not cordial. She used to run away frequently to the house of her maternal relations.

According to the prosecution on June 15 last, when Dharma returned home from work and asked his wife to serve him food, she did not heed to his requests although made several times over. He left the house in anger. His aunt also went to an adjoining hamlet to grind corn. In the meantime, the accused returned home and fatally assaulted his wife, who he said was trying to run away.

Her dead body was kept under a rose-apple tree with her outer apparel hanging down from one of the branches. When the accused met his aunt later, he told her to inform the public that Guni died of a fall from the tree. He reported the matter to the police.

The accused denied the charge.

The Judge, in the course of his judgment, observed that on the evidence it was established beyond doubt that Guni died of injuries caused by the accused. She had no doubt provoked her husband by her disobedience, by her frequently running away from his house, and by her perverse attitude on that particular day. The accused however ought not to have acted in so a rash manner as to cause the fatal injuries.

A young man though he was, his action was blameworthy. The accused had further tried in the Sessions Court to throw mud on his aunt Tulsi, who had brought him, up from his childhood. Unfortunately Tulsi, it was stated, committed suicide because the accused had come into trouble.

The domistic tragedy was brought about by the provocation of the accused's wife and the rashness of the accused. The Judge, therefore, passed a lenent sentence as stated above.

STARVING ORISSA ASKS FOR FOOD

Two Thousand Square Miles Have Been Devastated By Floods And Oriyas Require Prompt Help

Mr. L. N. Sahu, Member Servants of India Society, Cuttack, writes:

To convey to the people of Bombay a correct idea about the troubles of Orissa, it is necessary to tell at the outset, that Orssa has not lost her self-respect and has not become a confirmed beggar. I want to say this because some Bombay friends may think that they are always troubled by outsiders for help of one kind or another and amongst them Orissa is one. But let it be made clear in the beginning that Orissa has begged for a morsel of food, whereas others generally have begged for advancement in some other departments of life. With Orissa it is a question of LIFE and DEATH.

DIVIDED ORISSA.

Orissa has been cut up into four or five parts. Some Oriya-speaking tracts are lying in C.P., Madras and Bengal. Then 26 Indian States of Orissa are politically separated from British Orissa. Thus altogether Orissa has been cut up into five slices and thrown into five different political areas.

Then comes the Zamindari system of Orissa, which is a bane to the people. Most of the Zamindars are foreigners, not indigenous and the worst of it is that they are absentees.

Then there are the mighty rivers of Orissa whose courses have been unnaturally diverted here, there and everywhere by the new high roads in the Native States of Orissa, the Railway lines, the anients, the embankments which have been built without a common plans.

INUNDATION CAMES.

Oriyas are suffering from various ills. The present trouble is that the Mahanadi rose in floods in the first week of August and the rainfall in one day alone in Cuttack town (August 3) was 14 inches, thus inundating and devastating 2,000 square miles and more of area. The consequences of such a flood can be easily imagined.

Mahatma Gandhi has appealed for Rs. 5 lakhs and the money is to be sent to Sjt. Mathradas Tricumdas, 53, Mint Road, Fort Bombay, and let me pray that the charitable Bombay public should be prompt.

JAIL FOR CONTEMPT OF COURT

But Defendant May Comply With Order In 10 Days

Arising from the death of a Parsi gentleman who married an English girl an interesting suit in which his will is contested is now before the Bombay High Court.

As an offshoot of the suit, a notice of motion to take contempt proceedings against the son of the deceased came up for hearing before Mr. Justice Rangnekar.

The plaintiffs are Bablibhai Sorabji Engineer and another. The defendants are Nawazbhai Sorabji Engineer and five others. The suit arose out of the petition for probate and made by the plaintiffs who are the executors of the will of Shapurji Sorabji who died in Germany last year.

PARTIES IN DISPUTE.

Defendants 1 to 4, the widow and children of a pre-deceased brother of the testator Shapurji. The 5th defendant, Madelin Matilda Sorabji, was the English wife of Shapurji, and the 6th defendant was their son.

Defendants 1 to 4 filed a caveat opposing the grant of probate of the will to the plaintiffs.

The 5th and 6th defendants were residents of England and came over to India after the death of Shapurji. The 5th defendant then also filed a caveat and was joined as a party-defendant.

It was alleged by the plaintiffs that the caveat filed by 5th defendant was really a caveat filed on behalf of her son, the 6th defendant; and that the affidavit made by her in support of the caveat was prepared under the instructions of the 6th defendant who, for ulterior motives, did not wish to become a party to the suit.

It was further alleged by the plaintiffs that when Shapurji died in Germany, his son the sixth defendant went there and took possession of all his personal belongings including certain important document which, it was alleged, were suppressed by him.

The plaintiffs desired to bring on record the sixth defendant who was originally not a party to the suit. He and his mother, the 5th defendant, had already arrived in Bombay and were staying at the Hotel Majestic. At the instance of the plaintiffs, a notice of summons was issued against the 6th defendant who, however, did not appear in court at the hearing, but his mother, the 5th defendant appeared and opposed the summons on his bealf. The Chamber Judge ordered that the 6th defendant should be joined as a party defendant, and directed him to file his written statement and make his affidavit of documents after the service of the summons.

Accordingly, the summons was served on the 6th defendant who, however, did not put in his appearance in court. He equally ignored the other directions of the court for making his written statement and making an affidavit of documents.

Again, on August 31st last, a separate order of the Chamber Judge directing the 6th defendant to make his affidavit of documents was served upon him.

On receipt of this order, the 6th defendant wrote to the plaintiffs' attorneys explaining that he did not make his affidavit of documents, because he did not wish to take any part in the proceedings, and that he was not subject to the jurisdiction of the High Court as he was not a resident of British India.

CONTEMPT OF COURT?

The 6th defendant having failed to make an affidavit of documents as ordered by the court, the plaintiffs took out this notice of motion for contempt of court.

About the allegation of suppressing documents, the sixth defendant denied it altogether.

In his judgment, his lordship said the court had to consider only one question on the motion, i.e. whether this was a fit case for committing the 6th defendant to jail. He was a party to the suit. When the summons was served upon him, it was open to tane proceedings to safeguard his interests and raise the question of jurisdiction, and if he had done so at the time, the order for making him a party defendant might not have been made. From what had transpired, it was clear that he never intended to raise the question of the court's jurisdiction, and he could not be allowed to raise the question now on this motion.

His Lordship came to the conclusion that the 6th defendant had deliberately defied the order of the court, although ample opportunity had been given to him to comply with it.

His Lordship, therefore, made the rule absolute, but to give the 6th defendant one more opportunity, he was ordered to make his affidavit of documents in ten days, failing which he was to be committed to jail for six months. The defendant was ordered to pay the costs of the motion.

The Advocate General appeared for the plaintiffs, and Mr. N. P. Engineer for the sixth defendant.

11 PLEADERS ON TRIAL

Alleged Participation In C. D. Movement

THANA CASE

Defence Counsel Says There Was No Incitement To Lawlessness.

(From Our Correspondent)

THANA Sept. 26

Arguments were heard yesterday by the District Judge, when the hearing was resumed of the case in which eleven pleaders from the Thana and Kolaba districts are called upon to show cause why disciplinary action should not be taken against them under section 26 of the Bombay Pleaders' Act of 1920 for their alleged participation in civil disobedience movement.

Mr. K. K. Thakar is holding a simultaneous inquiry into the petitions filed by the Government Pleaders of the two districts.

The names of the opponents are: Messrs K. N. Kotwal, D. N. Nadkarni, T. N. Bedekar, D. N. Bandrekar, V. V. Dandekar, V. M. Vedak, V. G. Limaye, Y. D. Deshmukh, A. M. Pingale, P. G. Mehta and D. K. Kunte. Mr. Kunte is still undergoing imprisonment in the Thana Jail.

Mr. B. H. Shringarpure and Mr. A. V. Chitre, Government Pleaders for Thana and Kolaba respectively, appeared for the Crown. Mr. D. M. Guta argued on behalf of Mr. Kotwal, while Mr. B. R. Damle for the rest.

CONVICTION UNDER PRESS ACT

Referring to the case of Mr. Kotwal, Mr. Shringarure said that Mr. Kotwal was convicted for distributing unauthorised news-sheets under section 18 (1) of the Indian Press Emergency Powers Act. The object of the leaflets was to boycott Mr. Lothian, the chairman of the Franchise Committee when they visited a village in Thana. He was also a "dictator" of the Salsette Taluka Congress Committee.

The Court remarked that there was no sense in saying that Mr. Kotwal was a self-appointed dictator and in another breath that he was appointed by the Congress, which was not declared an unlawful association.

When it was urged that the Salsette Taluka Congress Committee was dissolved the Government Pleader remarked that inspite of the legal prohibition it was functioning even thereafter and the publication of its dissolution was a ruse to mislead the Government.

MERE WARNING WON'T DO

If the Court comes to the conclusion, said the Government Pleader, "that the conduct of the opponent was improper, a mere warning will not do, as no regret was expressed and no assurance given for the future by him."

The Court remarked that he had no powers to pass orders. If he had them, would let go many of them with a warning.

Mr. Gupta urged that the case of his client was not worth reporting to the High Court.

Then the cases of Mr. Bandrekar and others were argued by Mr. Damle.

NO IMPROPER CONDUCT

Mr. Damle, speaking generally of the remaining cases, pointed out by citing several illustrations that the Court had not to inquire into every kind of improper conduct. It might mean something more than professional misconduct, but the conduct of a pleader would not be improper for holding atheist or socially revolutionary views. There were two categories of misconduct, one was failure in professional duty and the other of infamous character.

Mr. Damle further urged that the Court had to take into consideration that there was no incitement to lawlessness, but the opponents were civil lawbreakers individually. In deciding the cases the Court should look to the present political conditions in the country as well as the assurance given by some of the opponents that they did not intend to take part in civil disobedience movement.

Though the improper conduct of some opponents might be the result of the inquiry, the Court was competent to decide for itself and not trouble the High Court with the report of cases not deserving disciplinary action.

Mr. Shringarpure said that so long as the opponents continued as pleaders, they had to follow the laws of the country whether they were good or bad.

NO JURISDICTION

In the case of Mr. Bedekar, an advocate of the Bombay High Court, it was urged that the court had no jurisdiction. The Court could at the most move the High Court, and the High Court after consulting the Bar Council could ask the District Court to hold an inquiry into his case.

The Court, after hearing arguments in the remaining case, observed that the cases of Messrs. Banorekar, Deshmukh, Mehta, Limaye and Nadkarni were the strongest for report, those of Messrs Dandekar and Kotwal would come next, while those of Messrs. Pingale, Vedak and Kunte, which were purely cases for the breach of parole were weaker. The Court opined that the case of Mr Bedekar was one in which he had no jurisdiction.

The result of the inquiry will be declared by the District Judge on Friday afternoon.

DISASTER TO AIR FORCE ARMADA

(Special Cable).

LONDON, Sept. 27.

Disaster overtook the Air Force armada which, while returning from her manoeuvres in Scotland, encountered a fog. CHARGES AGAINST SURAT POLICE

Khadi Seller Complains Of Abuse And Ill-Treatment

The following complaint has been filed in the Court of the District Magistrate of Surat, by Advocate Mr. Chunilal M. Gandhi, under instructions from Mrs. Pushpavati Sobhagchand Thakoredas, of Gopipura, Main Road, Surat, against Solomon Shirgaoker, Police Sub-Inspector, B. Division, Surat:

That at 9 p.m. on Thursday, the 21st September 1933 I was seated on the verandah of my house when the accused with about 20 or 25 Policemen raided it.

Immediately on his getting up on my verandah he asked where my husband was. I said he had gone out of the city; whereupon he began to use foul and obscene abuses. He said come on, point out where he is, you are telling a falsehood. So saying he pushed me forward and the police having surrounded me on all sides took me upstairs and searched the whole house up to the terrace, but my husband was not found. During the time at short intervals there was a continuous volley of abuses. When on the second storey a room was found locked, he again abused me and said that I had concealed him in that room. I said that portion of the house is not in our possession.

In the interval my husband's younger brother Chimanlal Thakoredas was brought there by the police. The Sub-Inspector gave him dirty abuses and asked him to point out his brother.

I was taken to the back room of the first storey. I was made to stay there, all policemen surrounding me. In that room there were one Dahyabhai Nanchand and another Ghelabhai Naginchand who had both come from Kathor with a chit from Mr. Solanki Pleader of Kathor to see my husband. Seeing them the Fozdar gave them filthy abuses, said you have come to gamble. Saying so he got Dahyabhai Nanchand to take out all his clothes in my presence, searched the person of Dahyabhai Nanchand, and also searched the person of Ghelabhai with clothes on. Both were handcuffed and tied with a rope and made to sit there.

Again followed inquiry of me as to where my husband had gone; as if the Fozdar did not like to talk in decent language he continued to abuse. He said show your husband or you will be taken to jail in place of your husband. Send for your husband or we shall arrest you. I said he is not in the city where can I call him from? Yet he continued to abuse as he pleased.

Then he asked me what profession my husband followed. I said he was a Pearl merchant. Thereupon he again began to abuse. Said with abuse he was a gambler. If you do not tell the truth, you will be handcuffed and taken to jail. He asked the policemen to handcuff me and tie me up with ropes; whereupon the police came near me. I was unnerved, did not know what to say or do.

Then he said to me show me whatever you have from your husband. I said I have nothing. Then I was taken to the room in front which is my room. There was a cupboard which bore my name and though I pointed out that to him, he got it opened. Threw away all clothes, religious books etc. every thing that was in the cupboard with the result that some of the religious books have been damaged. He asked me to deliver over to him whatever money I had. If not, they will arrest me, and take away.

Then he demanded the key of the safe. I said I have not got it. So again he began to abuse. You wretch, you are telling a lie. Saying so, he gave 2, 4 filthy abuses. But how can I produce the key which I had not. Thereafter he opened the small cupboard on which the safe was placed. It contained some religious books, ivory bangles and Kankan which I wore at the time of my wedding. They were thrown away outside with the result that one gold strip of the ivory bangles got out of order.

There was a cupboard belonging to my husband. Everything out of it was also thrown about in any manner he pleased. The police stayed at my place till 2 or 2-30 a.m. in all this row.

Under these circumstances my complaint against the accused is under sections 504, 506 B, 509, 354 and 426 I. P. Code and section 25 of the Indian Telephone Act, or such other offences as can be proved by other evidence.

RELIEF FOR UNEMPLOYED

Geneva Labour Conference To Discuss Problem In Forthcoming Session

SIMLA, Sept. 26.

The following Communique has been issued from Simla:—

As at present arranged the 18th session of the International Labour Conference will be held at Geneva during June 1934 when following subjects will be on the agenda:

Partial revision of the 1925 Convention concerning workmens' compensation for occupational diseases with a view to inclusion in this Convention of further list of diseases (including silicosts) for which compensation is payable.

The employment of women for underground work in mines of all kinds.

Reduction of hours of work.

Unemployment insurance and various forms of relief for unemployed. Methods of providing rset and alteration of shifts in automatic shootglass works. The first two subjects come up for first discussion and others were discussed at the 17th session held in June, 1933, and will be for final consideration.

PERSONNEL

Delegates representing each member of the state at the conference include two Government delegates and one employers delegate. Advisers can be appointed for each group according to necessity and circumstances. The duty of nominating personnel of entire delegation rests with the Government of India who under the terms of the Treaty of Versailles have undertaken "to nominate non-Government delegates and advisers chosen in agreement with industrial organisations if such organisations exist which are most representative of employers or workpeople as the case may be".

An association will be regarded as representative of employers only if it includes among its functions that of dealing with interests of employers as such (e.g., regulating the conditions of employments). The more fact that the membership of an organisation maintained for other purposes (e.g., protection and regulation of commercial interests of its members) includes a number of industrial employers is not in itself sufficient to give that organisation a claim for consideration in the present connection.

NON-GOVT DELEGATES

All suggestions relating to nomination of non-Government delegates and their advisers should reach the Secretary to the Government of India in the Department of Industries and Labour as early as possible and in any case not later than 31st December, 1933. Allowances (on a scale which can be ascertained by application to the Department of Industries and Labour) will be granted by the Government to defray the expenses of the delegates and any adviers finally nominated.—A. P.

YARN DEMAND FALLS OFF

Japanese Mercerizeds Move Steadily

SHARP RISE IN ART SILKS

Good Enquiry For Indian Coarse Counts

Bombay, Sept. 27.

The improvement reported in our last enquiries for several yarns for various districts as well as in prices of yarns to some extent, has not been maintained and in some cases prices have given way on account of the recent decline in cotton prices and also due to loss of confidence amongst the dealers. Most of the enquiries that were witnessed during the past week have fallen off and in many cases rates offered are somewhat lower than before. Dealers have been marking time in the hope of getting better opportunity for making purchases of their requirements and naturally therefore turnover during the week has been very limited. Consuming districts do not send any encouraging report so far and the general condition of the Handloom weavers has been reported to be as bad as before. The general tendency of the market continues to remain uncertain and whilst much more will depend upon the course of the cotton prices in the next few days, in view of the very limited demand from consuming districts, we do not expect any contiued improvement in prices of yarns in the near future.

ENGLISH YARNS.

Manchester prices have been found unworkable in a few lines where there is some possibility of business, but owing to disparity in prices hardly any business, is reported.

JAPANESE YARNS.

Prices in this class of yarns have remained more or less steady with a moderate demand from the consuming districts. In case of 2/64s Mercerized yarn there have been increased enquiries from consuming districts and a slight improvement during the week has been possible. In other yarns, rates are more or less unchanged and the demand continues to remain moderate. Fresh forward business has not been possible on any large scale, in as much as dealers have been now very cautious in making forward purchases. It is further reported that regular consignments in various qualities have been brought from Japan by some of the Import Houses in well-known qualities and it is also reported that most of these consignments have been imported on account of the Japanese Makers. The market naturally therefore does not find any difficulty in supplies although Indent business is practically very meagre. Sampin have shown further improvement where exchange remains more or less unchanged.

ART SILK YARNS.

The important event during the week has been a sharp rise in prices of Syndicate qualities to the extent of two annas per lb. on Saturday the 23rd inst. This unexpected rise is said to have been mostly due to the sharp decline in Italian Exchange as a result of which rise in Rupee prices was inevitable. Dealers and consumers all over the country have received this sharp rise with rather mixed feeling. It is reported from several consuming districts that such a sharp rise will make it very difficult for the consumers to continue the use of Art Silk yarns in the same big quantities which they had been hitherto using in as much as it will be now quite impossible for them to compete with Japanese Tafeeta cloth by making purchases of yarns at the present high level of prices. It is further reported that unless the prices of cloth improve to a considerable extent, some of the weavers will have to leave the use of Art Silk yarns and take to some other work either in the fields or in other lines. Further reports from consuming districts are awaited with interest in the next few days. As regards Japanese Art Silk yarns prices have improved to some extent and the Japanese Import Houses seem to be quite silent about forward business for the time being. Some of the dealers who had been hitherto holding stocks purchased at cheaper prices have commenced selling well below the Syndicate prices to realize their profits. The undertone remains steady although the tendency seems to be rather uncertain.

INDIAN YARNS

Informal discussions have been going on since a few days between the Japanese and the Indian Government Delegation as well as between the British Delegation and the Indian Millowners, but nothing definite has been known uptill-now. The problem in itself is very intricate and it is difficult to forecast at present when the final settlement will be arrived at. Prices of yarns remain slightly easy on account of insufficient demand and stocks with some of our Mills have been increasing. It is reliably reported that upcountry Mills have been careful to meet the requirements of their consuming districts and consequently most of the rates offered to the Bombay Mills are found to be unworkable and no sales in bulk have been reported so far. Comparatively better enquiry is found in Coarse count on account of the cold season, but business is getting increasingly difficult to be arranged on account of wide difference between the buyers and the sellers.

TRADE BUYING AND LONG LIQUIDATION

October Notices About 40,000 Bales

STOPPED BY SPOT HOUSES AND INVESTORS

Weakness In Wheat Influences Selling

Bombay, Sept. 27.

The New York Cotton Futures Market was nervous and irregular on Tuesday owing to October liquidation influenced by weakness in Wheat.

Trade was steady with firm basis in Southern Spot Markets. Rains in South-West are delaying the movement of the crop.

An important announcement regarding Dollar equalisation fund together with re-definition of currency and credit policy is awaited. This statement is expected to be bullish indicating controlled inflation.

Bombay, Sept. 27.

On Tuesday the New York Cotton futures market fluctuated within a narrow range of 15 points and closed at a net decline of 7 to 4 points on long liquidation influenced by weakness in Wheat. The market was nervous and irregular unsettling factors being liquidation and trade buying.

TRADE BUYING.

The market opened at a decline of 6 points with October 9.80. There was steady trade buying which gradually improved prices by 14 points from the opening level and October option reached the highest level of the day 9.94 before noon.

OCTOBER TENDERS.

It being the first day of issuing tenders against October delivery, 40,000 bales notices were issued. Half of them were stopped by spot houses and investors.

LONG LIQUIDATION.

In the afternoon there was some long liquidation influenced by weakness in wheat and prices declined 15 points from the highest level. The market closed at about the lowest level of the day at a decline of 7 points in October while other positions lost 4 to 5 points. Spot Cotton prices closed unchanged at 10.05c.

NEW ORLEANS MARKET.

The New Orleans Cotton futures market was quiet and closed at a decline of 10 to 8 points. Spot Cotton prices declined 4 points at 9.81c.

LIVERPOOL MARKET.

The Liverpool Cotton futures market was due to open at a rise of 2 points but the session opened quiet at a decline of one to two points. Light London selling and scattered hedge selling met with little trade calling and local buying. In the afternoon there was Bombay selling and fair trade calling. The market closed steady at a decline of 2 points. Middling American Spot Cotton prices declined 4 points to 5.55d.

INDIAN COTTON WEAK.

East Indian Cotton futures ring was easy owing to lower Bombay advices and closed at a decline of 5 points with October 4.81, January 4.82 and March 4.79.

EGYPTIAN COTTON.

Egyptian Cotton futures section was quiet but steady. Sakels closed 4 to 5 points lower with Spot Cotton 8 points down at 7.33. Uppers futures were quiet and declined 3 to 4 points with Spot Cotton 15 points lower at 6.38d.

ALEXANDRIA MARKET.

The Alexandria Cotton futures market was quiet and featureless. Prices closed 4 to 7 points down as a result of day's trading.

PURCHASES ADVISABLE.

Government proposal to advance 10 cents to farmers is encouraging holding movement. Present price level is safe and even if prices decline temporarily we believe purchases around present level will show satisfactory results in the long run.

EFFECT OF N. I. R. A.

The Cotton Trade Journal writes:—

"The feature of the Industrial Recovery Programme which is attracting most interest here, is the apparent conflict between industrial executives, on the one hand, and representatives of labour on the other. It is an open secret that the latter are seeking to use the Industrial Recovery Act as an entering wedge in the elimination of the open shop. This effort is naturally being vigorously resisted by those responsible for the management of industrial enterprises in this country. The act provides for collective bargaining and representatives of labour are trying to create the impression that only those who belong to the unions have any chance to secure the benefits inherent in this measure. There does not appear to be any justification for this view and it is to be hoped that General Hugh Johnson, Industrial Administrator, will shortly make it clear that labour leaders, in taking this attitude, are moving under false premises."

OPERATORS HOLDING OFF.

Messrs. Thos. Smith and Co. state:—

The market was quiet trade buying being off-set by October liquidation. Operators are holding off pending political developments and an important announcement is expected from Washington shortly regarding the Administrations' currency and credit policy.

Should prices advance on any announcement from Washington regarding controlled currency inflation we think it advisable to secure profits on part holdings in view of the forthcoming Bureau and possible pre-liquidation.

50,000 DROWNED IN FLOODS IN CHINA

Million People Reported Starving

RELIEF COMMISSIONS RUSH UP SUPPLIES

Disaster Partly Due To Brigands And Troops Breaking Down Dykes

NANKING, Sept. 27.

Fifty-thousand persons have been drowned, a million are starving and two million affected, according to an official estimate, which states that losses are due to devastation by July and August floods in the triangle between the old and new channels of the Hwangho or the Yellow River.

Relief commissions, which are rushing up supplies, attribute the disaster partly to brigands and troops breaking down the dykes for defensive purposes, when the Hwangho was rising rapidly.

Vast areas are still waterlogged and elsewhere river-silt has made the land valueless for years. Parents are reported to be giving away their children in an endeavour to save their lives during the coming winter.

EX-MINISTER EXPOUNDS PRESS LAW

Accused Not Publisher Of Offending Article, Says Mr. Kedar

HOSHANGABAD, Sept 26

Mr. G. M. Pendharker, Sessions Judge, heard to-day the final reply of Mr. T. J. Kedar, Ex-Minister, Counsel for the appellant in the criminal appeal in Sardar Diwansingh versus the Nawab of Bhopal.

He referred to the arguments of the prosecution and said that word "publishes" occuring in Section 3 of the Princes Protection Act had to be interpreted as if the Act was part of the Press Law. In this connection the previous history and object of this legislation had to be considered. Counsel cited Maxwell and Privy Council decision in support of his contention. The original Press Act of 1867 was amended in 1922 by adding Editor to the category of persons responsible under the Act.

Counsel submitted that the present act was part of the Press Law of the Land and the meaning attached to words "editor, printer and publisher" in the Press Act should be the meaning attached to the same words in section 3 of the Act.

Evidence of publication in the District did not established that accused was the person who published the offended article.

Counsel next dealt with the joinder of several acts like editing, printing and publishing and submitted that this was illegal though it could be assumed that some of these acts could be traced to the accused.

At this stage the Court rose for the day.—A. P.

Dr. Roy will examine Mrs. Motilal to-morrow at the Medical college.

REICH FIRE TRIAL SENSATION

Dimitroff's Question To Lubbe Disallowed.

LEIPZIG, Sept. 26.

Disallowance of Dimitroff's privilege to ask questions and van der Lubbe's disinclination to answer any questions at all were features of to-day's trial. Dimitroff embarking on another of his impassioned harangues demanded of van der Lubbe why the latter committed the crime of incendiarism and with whom he discussed the matter. Journalists keenly awaited the answer in view of the widespread accusations in Europe that van der Lubbe was merely a Nazi fire-brand but the question was disallowed by the President of Court who emphasised that van der Lubbe had already admitted that he had no accomplices and Dimitroff was not allowed to question anybody further.

Van der Lubbe described minutely his abortive, childish-sounding attempts to set fire to Welfare Office, City Hall and ex-Imperial Palace. Continually questioned by President whether he acted through Communist motives. Lubbe gave no reply.

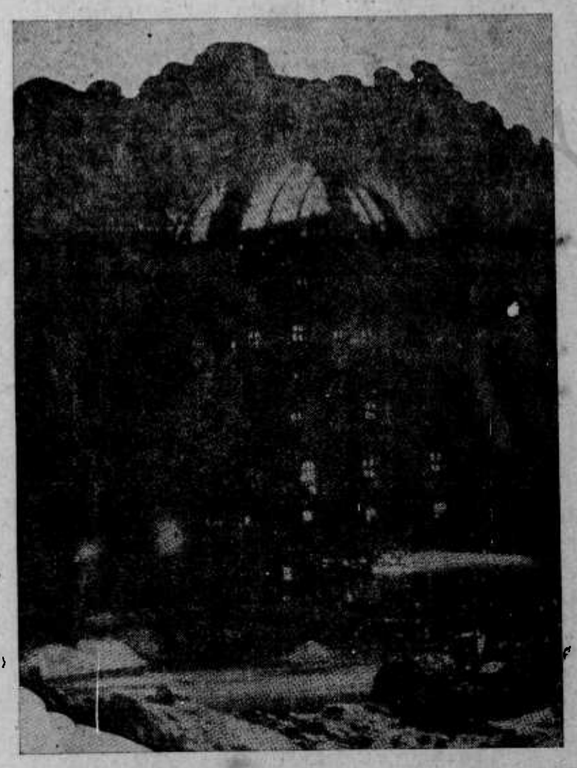
Report was then read alleged to be an account of Marxist views given by him at the preliminary examination stating that his motive for three fire-raising exploits was to protest against national socialism.

Prison doctor gave evidence that Lubbe acted normally in gaol and he was pursuing familiar Communist tactics by playing idiot in Court.

Reuter learns that Chief of Berlin Fire Brigade who was dismissed following his report on Reichstag fire, has been added to the list of witnesses.—Reuter's Special.

REICHSTAG FIRE ENQUIRY AT LONDON

Famous lawyers from all the world over met in a Legal Commission of Inquiry in London to determine the responsibility for the burning of the Reichstag last February.
A general view of the opening of the inquiry on September 14. The members of the Court are (Left to Right): Dr. Branting (Swedcn); Mr. Edward Garfield Hays (U.S.A.); Dr. Bakker-Nort (Holland), the only woman member; Mr. D. N. Pritt, K.C. (England); Mr. Vald-Huyt (Denmark) and M. Vermeylen (Belgium).



The trial of Van Der Lubbe and others for alleged incendiarism in connection with setting fire to the Reichstag has aroused International indignation and protests, because the German Government has refused the request of M. Romain Rolland, on behalf of a Committee of International front-rank lawyers to give them an opportunity to defend the accused.
The Reichstag photographed in flames.

De Valera's Fight On Two Fronts

He Faces Opposition Of United Ireland Party And Is Hampered By Violence Of His Own Supporters In I. R. Army

DUBLIN, Sept 26

The crisis which has been brewing in Ireland is likely to be brought to a head at to-morrow's openng of the Dail. Mr. de Valera is fighting on two fronts for the first time: he meets organised opposition of the United Ireland Party, while he is hampered by the increasing violence of his nominal supporters in the Irish Republican Army, whom he has repeatedly and vainly denounced for playing into the hands of their opponents by their lawlessness.

The support of Labour which he has bought at the price of virtual Labour dictatorship is unsubstantial. Labour is dissatisped at Mr. de Valera's bill for the relief of unemployment and is rootedly antagonistic to the revival of the Public Safety Act with its secret Draconian Tribunal.—Reuter.

BOYCOTT ENGLISH BEER MOVE

DUBLIN, Sept. 26.

Fifteen men, with damaged heads, have been sent to the hospital after a pitched battle between police and the Republicans in connection with the boycott of the English beer.

A crowd of several thousands surged around the premises of Bass, Ratcliffe and Gretton, stoning windows. The arrival of police with reinforcements, towards mid night, was followed by wildest scenes.

New York Stock Exchange Not To Be Shifted To New Jersey

11TH HR. SURRENDER

Mayor Not To Sign New Taxes And Exchange Authorities Will Give Up Plan of Moving

NEW YORK, Sept. 26.

As a result of the 11th hour surrender by Mayor O'Brien, the New York Stock Exchange will not probably be removed to New Jersey.

In response to the Mayor's gesture in deciding not to sign tax measures, Mr. Whitney, President of Exchange, has informed the Mayor that if he vetoes the taxes Mr. Whitney will recommend abandonment of the plan to move the exchange.—Reuter's Special.

(A New York message, dated September 23rd, stated in this connection:—

Owing to taxation in New York City the Stock Exchange has decided to move its business to Newark, New Jersey, from October 2.)

CONDITIONAL GIVING UP OF PLAN

NEW YORK, Sept. 26.

ARGENTINE BACK TO "LEAGUE"

Senate Passes Bill With Safeguards Re: Monroe Doctrine

BUENOS AIRES. Sept. 26.

The Senate has passed unanimously the bill to rejoin the League of Nations with reservation as regards the Article 21 of the League Covenant, which safeguards validity of regional understandings such as the Monroe Doctrine.

Argentine's reservation emphasises that the Doctrine is merely unilateral, political declaration not constituting the regional understanding.

Argentine withdrew from the League in 1920.—Reuter.

FORD WORKMEN STRIKE

Thousands Walk Out Being Dissatisfied With Rate Of Pay

32-HOUR WEEK NO GOOD?

Protest In Spite Of Increase In Pay From Four Dollars To 4.40 Dollars Daily

CHESTER (Pennsylvania), September 26.

Several thousand workmen of the Ford Motor Company's factory here have walked out, dissatisfied at the rate of pay.

Only three days ago Mr. Ford had announced that his 50,000 employees had been placed on a 32-hour week, while the Company had recently raised the daily wage rate from four dollars to 4.40 dollars.—Reuter's Special.

REVIVING SCHEME 21 YEARS OLD

Erection Of Extensions To White Hall

RUGBY, Sept. 26.

It is anticipated that Government will shortly sanction preparation of plans for construction on the embankment side of White Hall a new block for Government offices, costing approximately £2 millions. The Act authorising the erection of these buildings was passed 21 years ago but the scheme was postponed owing to war and the need for economy.

At present staffs of some departments in Westminster are working in buildings on which Government are paying rent while accommodation in some instances is considered inadequate and unsuitable. Office of works have already asked the Royal Institute of British Architects to nominate ten architects whose names will be submitted to a committee who will be making the final selection. It is stipulated that architects nominated shall not be over 55 years old. The scheme if proceeded with will take same years to complete.—B. O. W.

SOVIET'S TIT FOR TAT

More Retaliation For Germany's Expulsion Of Correspondents

GOVT. EXPLANATION

Counterblast For Impossible Conditions Created By Hitler's Regime For Soviet Press

MOSCOW, Sept. 26.

The drastic action in expelling the German correspondents has been reinforced by the withdrawal of correspondents of the official Tass Agency and of the newspapers "Isvestia" and "Pravda" from Berlin.

An official statement, explaining the withdrawal and expulsion of German correspondents, says that the action has been taken "in view of the impossible conditions created by the German Government bodies for the work of the Soviet press in Germany who have suffered arrests, searches, ec., and have been finally refused admission to the Leipzig trial, where representatives of the press of other countries have been admitted."—Reuter.

MOSCOW, Sept. 27.

Germany has demanded, through diplomatic channels, revocation of the order of expulsion of German journalists.

M. Litvinoff has declined to accede to the demand, declaring that expulsion is preferable to reprisals for Germany's "systematic persecution of representatives of the Soviet press."—Reuter.
